COURTS UPDATE

The Courts Operation Committee has been active throughout the winter making plans for the upcoming season.

Thank you to all residents who provided input on the survey to help us gather feedback on the opening season. The input received helped inform the court plans for the 2022 season. This includes, extending the hours of operation to open courts earlier at 8:30 a.m., while respecting the residents who live in close proximity to the courts.

Many residents indicated they hadn't used the courts but plan to this year; this is likely to result in increased use of the courts. The committee decided to keep the access to the courts for residents and their guests. With a full year of operation ahead we anticipate gaining some better data on the demand for the courts and how we can open up the courts to the broader community.

In addition, benches will be purchased and equipment to move water/debris off the courts. A paddle system will be installed to accommodate drop in pickleball play and we are looking into tennis & pickleball lessons.

Again, thank you for your input!
